

# DTEN Mate Gen2

One Touch. Total Control.

The DTEN Mate Gen 2 reimagines the meeting room controller for the hybrid era—faster, cleaner, and more intuitive than ever.

With its elegant and spacious 11.6 inch multi-touch display, retractable BYOD cable, and Power-over-Ethernet (PoE) simplicity, the Mate Gen 2 transforms every meeting into a seamless, professional experience.

Built for enterprise reliability, DTEN Mate Gen 2 integrates with DTEN Orbit for centralized device management, streamlined device updates, and real-time status monitoring. Whether managing a DTEN Bar, DTEN D7X, or any certified Zoom Rooms or Microsoft Teams Rooms setup, the Mate Gen 2 unifies control, collaboration, and connectivity in a single, intelligent device.

## COMMAND YOUR CONFERENCE

### DTEN Mate Gen2: More than a Controller

- **One-touch Start.** Launch meetings instantly across Zoom, Teams, or any supported platform.
- **Retractable USB-C BYOD Cable.** Share content or connect your laptop with a simple pull. No clutter and no adapters.
- **Customizable Action Button.** Quickly adjust camera views, audio levels, or access DTEN settings.
- **Adjustable Angle Display.** Find the perfect tilt for comfort and visibility on any table or console.
- **PoE Connectivity.** Provides both power and network in a single, tidy connection.
- **Fast Setup.** Plug in, pair with your DTEN system, and you're ready to go.
- **Extended Touch Display.** Mirror or extend the main DTEN screen for local content of whiteboard access.
- **Seamless Integration.** Pairs instantly with DTEN Bar or DTEN D7X for unified control and shared intelligence.
